Senior Companions don't need medical or technical skills, only a willingness to share their time and talents.

A Senior Companion will act as a companion, confidant, teacher, advocate, and friend.

Activities will be aimed at helping the individuals supported to develop their full potential. Examples of activities include:

- Learning independent living skills, like doing laundry, and cooking.
- Learning to set goals and make a budget.
- Helping individuals write letters to family and friends.
- Building interpersonal relationship skills by talking, sharing experiences, even playing games.
- Helping individuals adjust to the world outside the home.
- Providing active and sensory stimulation to severe and profoundly disabled individuals.
